

## **Simulation and Experiential Learning Labs (SELL) 2024**

### **Mission**

The mission of the Billings Clinic Simulation and Experiential Learning Lab (SELL) is to advance healthcare education in a safe, sustainable, and realistic learning environment for both Billings Clinic employees and community colleagues. The setting and services match appropriate learning activities and technology with specific learning needs and organizational goals to create opportunities for deliberate practice, application of critical thinking, clinical skills and enhance interprofessional training.

### **Vision**

The Billings Clinic Simulation and Experiential Learning Lab (SELL) will:

- Provide a safe simulation environment for learning, based on national standards that emphasize simulation and experiential learning for all healthcare disciplines.
- Promote participation and collaboration with regional healthcare and service-related organizations by providing high quality simulation based educational programs at an affordable cost.
- Ensure outstanding customer satisfaction through service excellence, feedback, communication, and efficiency.
