

Billings Clinic Heights participation in Comprehensive Primary Care Plus (CPC+) Is Ending

The Center for Medicare & Medicaid Innovation (CMMI) is concluding the Comprehensive Primary Care Plus (CPC+) program for all participating practices effective December 31, 2021. We do not anticipate any change in the quality of care you will continue to receive at our practice as a result of this change.

Please note, the conclusion of our participation in the CPC+ program will not result in a change in your Medicare benefits. Your doctor may continue to recommend that you see particular doctors for your specific health needs, but it's always your choice which doctors you use or hospital you visit. You continue to have the right to use or visit any doctor or hospital that accepts Medicare, at any time.

Questions?

If you have questions or concerns, you can call Matt Waller, Executive Director of Transformation at 238-2500 or bring it up next time you're in the office for an appointment.
