Legacy

# 2024 Classic – Benefiting Kids

As the region's largest independent health care provider, Billings Clinic is a leader in maintaining the health and well-being of people who live and work in a vast multi-state region that includes Montana, Wyoming and the western Dakotas.

Proceeds for this year's Classic will be used to support the care of some of the youngest patients at Billings Clinic. Dollars raised will help with a major renovation of the downtown Billings campus outpatient pediatric clinic. It has been over 20 years since this area was updated. This work will include a renovation of the main waiting area and updates to patient rooms, clinical space, nursing stations and staff area. Other enhancements will include items like new, specialized electronic exam tables to better serve our complex care patients' needs.

The care the Billings Clinic Pediatrics team provides is already outstanding, and this year's Classic will help give our young patients a modern, accessible care space to match. Whether pediatric patients are receiving a vaccination, undergoing a procedure, or visiting for an annual checkup, having a comfortable, calm and easily accessible space with room for families to be together is an important part of their experience.

We have an incredible team of caregivers serving our pediatric patients and are looking forward to focusing the 2024 Classic on this worthy cause.
